

THE MANCHURIAN SITUATION. 30/1

Every active thoughtful citizen should watch & STUDY the Manchurian ~~XXXXXXXX~~ part of China & go on from there. Best read the TANAKA memorial presented years and years ago to the Emperor of Japan. Japan is just carrying out this programme even if some millions get hurt in the doing. Of course if you don't get hurt first you probably are not worrying BUT WAIT. Listen and read and THINK:-

- "Our annual surplus population is nearly a million a year"
- "If we want to control China we must first of all crush the USA"
- "Use Manchuria as a base" "And penetrate the rest of China"
- "We shall set aside \$500,000 from the secret funds of the Army" "And send 400 retired army officers disguised as teachers - traders into Outer & Inner Mongolia to get rights"
- "There are too many Chinese in South Manchuria to be good for our Rights."
- "A war with Russia over the plains of Manchuria is inevitable"
- "We shall have no worries in the event of war with any country"
- "The Yamato race is then embarked on the journey of WORLD CONQUEST"
- "Lochin will be the best harbor in the world"
- "We shall have nothing to fear from the American navy from its size or the armies of China or Russia from their numbers"
- "Even if the war is ten years we need have no fear for lack of supplies"
- "In the wars with Russia and United States we must make Manchuria & Mongolia suffer the ravages"
- "With coal mines in control we hold the key to all Chinese industries"
- "The business we do amounts to 1/20th of the world trade in wool, cotton, bean cakes, soya beans and iron"
- "The Chinese are an oil-eating people" "In time of war we can cut off their oil supply of foods and the whole country will be miserable"
- "Having the iron & oil of Manchuria our army & navy will be impregnable"

Six years gone by and the routine still goes on while we FEW English speaking people in the entire world are asleep at the switch even with all

The rich Anfu iron mines in Manchuria are closer to Japan than ~~than~~ the ores of Queen Charlotte Islands, the acquisition of which serves the same purpose as the acquisition by Japan of iron ore deposits in Australia and Brazil, namely as useful footings for penetration.

A burden of 35 million dollars is added to the people of Canada for national defense, while we permit at the same time the very country against which we might have to defend ourselves, to acquire such an important strategic base on our coast.

In the great war, many a poor devil of a soldier, whose nerves were shattered and whose courage was gone, was shot after a brief court martial, for cowardice. Yet here we have an act of potential high treason, committed by those who sold, or allowed to be sold, such national asset under such peculiar circumstances - and hardly any adverse comments are in evidence.

Then too we should not ignore the possibility of serious and embarrassing entanglement with the United States, which must be the sequence if we permit a potential adversary to them, to occupy such control and observation-post on our coast. A very impolite and provocative act to a friendly and powerful next-door neighbour.

Japanese writers, statesmen and high ranking army and navy officers are openly telling the world, without restraint, of their far-flung conquistadorial aims, which ambitions form an integral part of their religion, which inculcates into the minds of the Japanese people, the dogma that they are the chosen ones to conquer and dominate in the end the whole world. Their recent actions in China fully prove, their capacity and their willingness to translate their words into deeds with the utmost of ferocious determination. In reaction to such behaviour we are justified in watching with mistrust, every move of theirs in any part of the world.

All their hypocritical, rosewatered, whitewash ^{propaganda} can not be believed when we confront it with their actions.

Japanese Trade Curb Demanded

A demand that city council revise its policy in dealing with Japanese applicants for trading licences, and that for the time being no further licences be issued to Nipponese will be made by Ald. H. D. Wilson in city finance committee meeting today.

After nearly four years of fighting against further penetration by Japanese in certain lines of commercial endeavor, Ald. Wilson believes world events are now proving the wisdom of the policy advocated. He would not disturb existing licences but claims a halt should be called in the issuance of further trading permits.

Monday the alderman charged that Japanese fishermen were deliberately obstructing seaplane traffic in the Fraser River near the airport. He told of one Oriental fisherman who refused to move his boat and net although a plane was in danger, and although a meeting of all fishermen on the river had undertaken to co-operate with the airways rather than be barred from the river.

A committee was set up to seek stricter control of the area near the seaplane harbor.

Jap Misrule in any conquered lands, 30/7 June 8/40. Repeat Jul 29
Every British citizen of Vancouver OUGHT to read "Secret Agent of Japan" by Mr. Vespa just recently off the press. Then tell all friends. The daily press said yesterday that the last Canadian Mission had been forced to close in Jap run North China. We can hardly believe the foul story of Jap murder, rapine, & cruelty of recent years in North China & Manchuria as we read Mr. Vespa's story "Secret Agent of Japan". He tells story of his own actual experiences of the whole rotten system of organized Jap injustice. We are just too smug here.

Vespa is Italian & lived 29 years in Manchuria & China. He knows Russian & Chinese & had acted as agent for Chinese until forced by Japs on pain of death to self & family. He escaped. Wrote the book.

Vespa knew all Chinese & Jap leaders & criminals. Knew all about running of rifles, opium, girls & all the rotten ways of Jap leaders. Jap rule is just one big stroy of outlaws, racketeers, smugglers, white slavery & all carried on by Jap army to rule & ruin country & without slightest regard for morals & scruples. Jap rule is terrific, rotten and so hardened that even Reds went back to USSR in preference.

Chang Tso-lin ruler of Manchuria murdered 1928 by Japs cannot be even doubted. In 1931 Manchuria began to fall to Japs. In 1932 Japs got whole Manchuria & started wholesale murders. 95% of Japs in Manchuria are scum of earth & live by relentless bullying aided by army.

Jap General Doihara forced Vespa into Jap service. That Jap headed schemes to make Manchuria foot bills & suffer. Doihara used every bad, crooked & low means possible in minds of most wicked Jap crooks.

Jap army & leaders openly said "Japs are sons of Heaven" "People we conquer shall simply disappear" "We plan to take India, all Pacific Islands, Siberia & all Orient" "No Jap likes a white man to talk the Jap language" "We shall bring our powerful navy into use & start South to Phillipines, Indo China, Borneo, Sumatra, New Guinea, Australia & India"

Reader it brother, it is all in the book. Tell all your friends to read it. Pass it along to the other fellow. Talk about it.

A woman's life in Japan is slavery from cradle to grave. Japs rule North China by drugs & degradation - same in Manchuria. Only gentleman in Jap army was General Muto & he died by suicide because of Jap rule.

Jap Generals openly look at you & say all foreigners swine. Jap generals think & say Japs better than Russians, French, British, Germans or Americans as soldiers & openly boast about that idea. Arrogant little brown rascals and yet British speaking folks hire them here.

The absolutely outrageous bestiality of Jap leaders in North China & Manchukuo is absolutely unbelievable yet true. It has had the effect of making the Chinese hate the Japs & so Japs are not safe a mile from the Jap army. Jap soldiers are murdered wholesale & so the Chinese get uniforms and equipment, and carry on against the Japs.

Mr. Vespa finally got free in 1937 with his family. He uses such words as "This rapacious pack of wolves has been allowed to roam the earth unmolested for too long. You see them masquerading in top hats and morning coats around the capitals of the world. They live from slaughter, slavery, loot, pillage, murder, kidnapping, brigandage, dope, racketeering, degradation. Let the world be warned & armed before it is too late. The real Japan must be exposed." All decent men along the Pacific shores should get busy NOW & read a copy "Secret Agent of Japan"

Probably Japs will call book a lie as they did "Tamaka Memorial"

Are the Japs a Menace? ⁵⁰⁷⁴

Japan is ruled by FIFTEEN men who believe Japan is the one land to rule the world. It is just SEVEN years ago that a Jap paper said Japan should conquer the world by the sword. The leaders are so very ignorant that they encourage such claims as that Japs first invented the airplane and auto & radio & photography and several items in science. Just feature that a Jap brought suit in the courts against Henry Ford for stealing the Jap patent on the Ford car.

In 1923 the Japs killed 8,000 innocent & defenceless Koreans. A Jap woman cannot speak to a white person without being despised. Over ONE HUNDRED secret societies are organized on the basis of hating the foreigners. It is time we in Canada had a few in self protection.

On a number of occasions foreigners have been prohibited from watching a parade of the Mikado through the streets. The Japs give no praise, thanks or consideration for the aid received in building up the army, navy or air force or the aid in the great earthquake disaster when the CPR and other boats did such decent work.

The Japs actually worship the Mikado as a direct representative from God. They think Charlie Chaplin the greatest hero of the age outside Japan.

In education the Japs are so conceited that they think their system the best in the world- so good in fact that they want folks to go and visit and see their system even though the Japs have to get them there as paid guests.

Jap newspapers with a million circulation print such items as "The US people are low and vulgar" "A war with US is an absolute necessity". YET in the same Japan you can buy a woman for life for 10 yen or about \$5. Brothels are licensed by the government.

In Japan the woman is a servant & must at all times trot along behind her husband or stay home. Her duties run in the following order- husband- children- home- flowers- tea. Japan is distinctly a man's country and the women are servants, slaves, or human flesh just traded back and forth in the big centres. The British Government had to ask the Jap Government to see to it that the white slave centres were removed from British territory especially Singapore.

In the silk industry (rayon) the Japs have moved up from 9th in 1926 to 4th in 1932 and probably 2nd in 1938. Her long hours-low pay have in five years multiplied her fabric production nine times. In 1932 the average wage for women was up to SIX CENTS a day of 12 long hours other than in the special factories for tourist viewing. All tourists just visit the view jails, view factories, view schools, and view places. Many women workers get NO PAY as they are slaves. There is an enormous traffic in female flesh. Some factories have as many as 50% slaves. There are 4,000,000 slaves under 15 years.

Labor unions cannot exist in Japn by law. Any so-called unions are about as permanent as the crowd around a soap box orator. Over 2,000,000 births occur yearly in Japan.

The word of Japan is absolutely worthless. The various STAFFS naval, military and air force mislead the masses in organized hatred of the white race. Their motto is "JAPAN WANTS WAR".

Japs

~~Very few people pay any real attention to the gradual inroads~~
of the above race on our national life. More people need to get the slogan "Canada for the British".

Right here in Vancouver our City Hall gives licenses to 742 Japanese and 611 Chinese. Each of these gives a living to at least five to fifteen aliens. The trouble is that so many folks are in lines not touched Y E T by these aliens. Already they are in:-

Taxis.	Dentists.	Painters.	Poultry.
Drivers.	Express.	Paperhangers.	Auto Livery.
Auto Repair	Fish Dealers.	Fuel.	Photo & Art Dealers.
Apartments	Florists.	Restaurants.	Rooming Houses.
Pool	Furniture.	Grocers.	Real Estate Dealers.
Bakers.	Greengrocers.	Beauty Parlors.	Retail Dealers.
Butchers.	Clothiers.	Peddlers.	Second Hand Dealers.
Barbers.	Hardware.	Books.	Stationery.
Bicycles.	Insurance.	Jewellers.	Steamship Agents.
Theatres.	Tailors.	Cleaners.	Tobacconists.
Brokers.	Laundries.	Dyeing.	Boots & Shoes.
Baths.	Candies.	Contractors.	Music Dealers.
Dry Goods.	Dressmakers.	Milk Venders.	Printers.

WE SHOULD START NOW TO DO A LITTLE SERIOUS THINKING ABOUT THE DANGEROUS SPREAD OF THE ORINETALS IN CANADA. We must be thinking about jobs for our children;- before it is too late.

It is all a case of whether we want to remain British in the days of our grand children, along the western part of Canada. Some folks are not yet touched by these aliens but just wait and you may find Japanese teachers, Japanese postmen, Japanese policemen, They already make up several hundred students at your University- that is the University for which you pay your B.C. Taxes. Aliens already own well on towards ten per cent (10%) of all the motor cars in B.C.

We white people have no cause whatever to be friendly with any aliens who cannot be absorbed into our racial stream. In the mean time they should all be kept in one part of the city or loaded on their own boats and sent home where they are so badly needed.

Japan is a very very poor country yet with one of the world's strongest navies. DON'T YOU EVER EVEN WONDER WHY ?

Do you realize for instance that there are enough young Japs in Greater Vancouver to give two hundred (200) Canadian educated school teachers steady jobs teaching them. Certainly the Japs do not pay enough taxes to pay this great cost of free education but it is not going to be very long before the separate school question for Japs is going to be a real problem.

Thirty years ago the Oriental problem hit the working man and the others just laughed but now it is everybody's problem. Half measures are a joke. The entire cause needs to be moved completely.

The Tanaka Memorial in Action. 30/6

Of course the Japs have branded the Tanaka Memorial a fake BUT since it was presented on July 25th 1927 to the Emperor by the then Premier Tanaka it has been followed by the Japs in their bloody struggle for world domination. Remember there are only 225 ~~white~~ million whites in the whole world. With the taking of Canton and all of China why the Japs NOW have 600 million people to draw on for slaves to run the world. Here are a few extracts from Tanaka plan:-

- 1-We must first crush the USA after Manchuria and Mongolia.
- 2-Use Manchuria & Mongolia & under pretext of trade enter China.
- 3-Send 400 retired army officers, disguised, into Mongolia (Canada???)
- 4-We should again draw swords with Russia.
- 5-We have withheld this knowledge from the rest of world. (maybe)
- 6-We shall have no worries in event of war with any country.
- 7-The Yamato race then embarked on journey of world conquest.
- 8-Even if war be for ten years we have no fear for lack of supplies.
- 9-Our victory is a foregone conclusion.
- 10-We hold the key to ALL the industries of China.
- 11-We shall have secret to be leading nation of world.
- 12-Our army & navy will become impregnable walls of defence.
- 13-We can also supply our own chemical & military needs.
- 14-Having China's ENTIRE RESOURCES at our disposal we shall proceed to CONQUER India, The East Indies Islands, Asia Minor, Central Asia & even Europe itself. (Hitler won't like this clause)

BUT EVEN NOW there are people who don't believe it with Korea, Formosa, Manchuria, five provinces of China already taken & the whole of China NOW today Oct 24th 1938 just ready to become part of the Jap Empire. Homes, gardens, churches, schools, people count for little with the ruthless invader. THREE HUNDRED MILLION people have been conquered since the war of 1914-18 and the slaughter still goes on. The less protected one is why the better chance to feel war at its worst. WE NEED NOT DOUBT but that the Japs are going to be able to make fighting slaves of the 500 millions of China. (Think of that)

AND yet we waste time on talking about picayune things instead of demanding that every man be fully trained to protect DEMOCRACY. Even the 225 million whites just will not unite to save their skins.

Is not survival the first law of nature? Or is it right to let so many go along playing ostrich and hoping that SOFT WORDS will protect people from the bombs, bayonets and attacks of those who absolutely detest, hate and everlastingly work secretly against your DEMOCRACY. AND WE LET THEM.
