MR. FIELD STATES:

1. That the Lighting Plant quoted to us a t $250.00 includes a Charging Generator and a Spare Magneto, which raised the total price to $275.00.

2. The Cat, at present at the camp, is for sale and Mr. Field would like an offer of $3,500.00 for the Cat including some spare parts on the premises.

NOTE: J. Prescott and D. McCall are examining the Cat to-day.

3. Mr. Morrison, caretaker, wishes to make an arrangement to buy the camp and the ground for a farm for himself when the deal has been completed.

MEMO re: CONVERSATION WITH Mr. FIELD, WHO REPORTS:

1. Approximately $2,000.00 has been paid as penalty for not burning slash.

2. This Slash burnt in 1944 refund of 50% can be obtained.

3. In the case of Royston (Stekl), the Custodian has agreed to give Stekl 75% of any refund that was collected after the Slash was burned.

4. Mr. Field will send us a letter saying that he will make the same arrangement with us.

5. Letter from Davis & Co. to Lock, Lane & Sheppard, covering the extension of time to July 31st, and the adjustment of taxes etc. as of June 30th was mailed this afternoon.

MEMO re: SLASH BURNING

Conversation with Mr. Field:

Mr. Field reports that the Deep Bay Logging Co. has been billed by the Forest Branch for failure to Slash Burn the logged area back of Fanny Bay. The approximate amount of this bill he states to be $2,700.00.

In order to give us proper title to the property, Mr. Field intends to pay this bill. (Lien on property) He is willing to allow us a share of any refund which is paid to the Deep Bay Log. Co. after the Slash is satisfactorily burned.

He states that he is willing to follow the same procedure as was taken with the Royston Lumber Co. (Stekl), whereby, Mr. Stekl was to receive a share of the refund, based on the cost to Mr. Stekl of Burning the Slash.

MEMO re: DEEP BAY LOGGING COMPANY

The Agreement forthe purchase of the Timber Blocks and R.O.W. was signed by this Co. and by the Cudtodian.

The Signature for the third party, the Deep Bay Logging Co, is required to complete the document, and Mr. Field pointed out that since the Agreement contained a Clause which could not be fulfilled, he was unable to sign for the Deep Bay Logging Co.

This Clause granted time to the Deep Bay Logging Co., to remove the Steel by May 31st. Due to a series of delays, it is almost impossible for this to be carried out.

Mr. Field was told that we would give him a letter extending the date from May 31st to June 30th.

Mr. Field is signing the doucments and giving them to his lawyer, Mr. Sheppard, who will deliver us a signed copy on receipt of this letter of extension.

Mr. Field is leaving town for about 2 weeks, so that, the deal would have been held up until his return, without our assurance that we would grant him this extension.

st $10,000.00 toolow, but
sing this offer, he agreed

had no particular wish to
nd had submitted these

Mr. Wray indicated that the Custodian's Office was unwilling and very probably unable to dispose of this Equipment piecemeal, and over an extended period of time. Consequently, they were making every effort to dispose of the Equipment at a reasonable price. If necessary, they will call again for tenders in the near future.

NOTE #6

One factor about the proposed purchase by us of the Steel and other Equipment, was the fact that it would not then be necessary for the Custodian to make arrangements for the removal of the Steel from that portion of the R.O.W. over which the V.L.&.M. Co. had Running Rights. The tender submitted by this Co. for the timber, included the entire R.O.W. with the Steel removed, and this was the point which was delaying the acceptance by the Custodian, of our offer.

.....

DEEP BAY LOGGING CO.

OCTOBER 19th, 1943.

MEMO re: INTERVIEW WITH MR. WRAY AT HIS OFFICE - OCTOBER 18th, 1943.

Two verbal offers were submitted to Mr. Wray for the Deep Bay Logging Co. Equipment.

1. For the entire Equipment including Steel and Railroad Equipment we made an offer of $35,000.00.

2. For the Equipment Parcels C, D, E, F & H, and two Railroad Speeders, appraised at a total of approximately $52,000.00, we made an offer of $25,000.00.

NOTE #1

It was pointed out that very little of the Equipment was of value to us, and if we were to purchase it, it would be with the idea of making a profit on a resale. It would require the service of a watchman, and a salesman. While some of the Equipment was in the readily saleable class, a lot of the Equipment would not be saleable for many years, and then only as junk.

NOTE #2

We would not wish to purchase this Equipment for our own use, but as we had been asked to make an offer by Mr. Field, we have submitted the above two offers.

NOTE #3

Mr. Wray reported that the Custodian's Office felt under some obligation to sell the Steel to Evans, Coleman & Evans, who had made a reasobable bid for it at the time tenders were asked for. If the entire Equipment were to be sold to us, it would be on the understanding that we would sell Evans, Coleman & Evans, the Steel on the basis of their tender received.

NOTE #4

Mr. Wray indicated that our price was at least $10,000.00 too low, but on being told that there was no chance of our raising this offer, he agreed to submit the figures to the Custodian.

It was made clear to Mr. Wray that this Co. had no particular wish to set up a sales organization for this Equipment, and had submitted these offers solely with the request of Mr. Field.

NOTE #5

Mr. Wray indicated that the Custodian's Office was unwilling and very probably unable to dispose of this Equipment piecemeal, and over an extended period of time. Consequently, they were making every effort to dispose of the Equipment at a reasonable price. If necessary, they will call again for tenders in the near future.

NOTE #6

One factor about the proposed purchase by us of the Steel and other Equipment, was the fact that it would not then be necessary for the Custodian to make arrangements for the removal of the Steel from that portion of the R.O.W. over which the V.L.&.M. Co. had Running Rights. The tender submitted by this Co. for the timber, included the entire R.O.W. with the Steel removed, and this was the point which was delaying the acceptance by the Custodian, of our offer.

.....

DEEP BAY LOGGING CO.

OCTOBER 19th, 1943.

MEMO re: PROPOSED PLANKING OF PORTION OF R.O.W. OVER WHICH V.L.&.M. CO. HAVE RUNNING RIGHTS.

Charles Phips reports that Mr. Scharnarr, truck logger, had planked and used as a truck road, 3/4 mile of The Vedder Logging Co. near Chilliwack. This method was successfully carried out, and at one time Mr. K. B. Fraser, manager of the Vedder Logging Co. had contemplated planking the entire lower portion of the Railroad along the Vedder River Dike.

INCIDENTAL MEASUREMENTS GIVEN BY MR. PHIPS:

Outside measurement of Rear Tires - 8 feet.

Inside distance of Rear Tires - 4 feet 2½ inches.

Distance of center of front tires - 6 feet.

Inside measure of front tires - 5 feet 2 inches.

One 12 inch plank on the outside of one rail.

Two 12 inch planks on the inside of each rail, and

Two 12 inch planks on the outside of the second rail.

The idea being that the second tire would keep clear of running directly on the rail.

An Extra plank ofcourse is required on curves.

No guard Rail was reported on the Scharnarr operation.

.....

Bill - Van ck $4000. favour The Custodian of Enemy Property
dr Alpine Tbr Co - Ddy

Pls have certified

ans

To: Mr. H. H. Wallace August 31st, 1943.

From: Mr. K. Shaw

A Certified cheque to the order of The Custodian for $4,000.00 from the H. R. MacMillan Export Company Limited is required to accompany the Tender we are submitting before noon today.

This Tender is for the timber belonging to the Deep Bay Logging Company Limited (Kagetsu) at Fanny Bay, B. C., now being offered for sale by The Custodian.

K. Shaw.

DEEP BAY LOGGING COMPANY OCTOBER 5th, 1943.

MEMO re: BID SUBMITTED AUGUST 30th, 1943.

INTERVIEW WITH MR. FIELD and MR. WRAY

1. Mr. Field stated that while his office regarded our bid of $40,000.00 as the successful bid, they could not give us official notification of its acceptance until they had been able to comply with the terms accompanying our bid;- namely, the delivery by the Custodian's Office of proper title of the R.O.W. from the timber to salt water.

All of these titles are now being searched by their lawyer, Mr. Sheppard.

The Running Rights agreements granted in 1938 by Kagetsu to the V.L.&.M. Co. gave this Co. the Right to use various portions of the Kagetsu grade near the E.&.N. Railway and the Beach.

If the Custodian was to pick up the Railway in this particular area, this action would cause harm to the V.L.&.M. Co.

The suggestion made to the Custodian was that K. Shaw would arrange with Thor Christenson, the Superintendent of the V.L.&.M. Co., to go over the ground together, and to try to work out a common usage that would be agreeable to both parties.

2. Mr. Field suggested that this Co. make a bid for any equipment other than the Railroad equipment and steel. He said that he had received various inadequate bids for the various Parcels advertised, and that his office would much prefer a bid for all the equipment together. That is ofcourse, not including the Railway equipment.

It was agreed that we should send our representative, Mr. Prescott, to look over the equipment to see to what extent it would be of value to us.

3. Mr. Field reported that he had an offer of $500.00 from Mr. E.R. Glover, who is logging at Union Bay, for the small Parcel of timber lying on Block 198, along Wilfred Creek. Mr. Glover stated that there was approximately one million feet in this area, and that he could reach it from the present operation.

This timber ofcourse is included in the area covered by our bid, and Mr. Field merely passed on the information concerning the interest shown by Mr. Glover.

COMMENT:

1. EUSTACE SMITH reports:
   - A. BLK. 617: Prior Cruise of 7,298 M. is "all There."
     : Quality of Timber up to 2,600 ft. level is "Quite fair." (Approx. 4,300 M.)
     : Quality of Timber above 2,600 ft. level is "Short-bodied and Poor Grade." (Approx. 3,000 M.)
   - B. BLK. 566: Approx. Estimate - 4,000 M.
   - C. TOTAL SOUTHERN /REA will yield 13,000 M (2,000 M. of which is Felled & Bucked.)

2. K. SHAW reports:
   - A. Prior Cruise of Scattered Stands, such as these, is almost invariably low.
   - B. FIR up to 2,600 ft. level (4,000 M.): Med. Size, Old Growth, - 15% to 20% Peelers.
   - C. HEMLOCK: Poor Quality, Butt Rot and some Shake.
   - D. CEDAR: Old Growth, Med. Size and Fair Quality.
   - E. LOGGING GROUND: Average.

3. CAN. WHITE PINE, reports Quality of FIR cut from this operation to be $2.00 over the average. Percentage of Peelers about 15%.

B. NORTHERN AREA (Elevation 700' to 1,500')

STRIP ¼ Mile wide along Eastern Boundary of BLK. 504. (Approx. 250 Acres.)

1. Prior Cruise Maps do not show Estimate of Timber.
2. Eustace Smith Reports as Accessible Timber: 3,000 M. (12.0 M per Ac.)
   - A. Almost ALL FIR, Small to Med. Size, Good Sound Quality.
   - B. LOGGING GROUND: Mostly Steep Sidehill.
   - C. Two short Branch Roads are required to reach the above total.

C. TOTAL OF BOTH AREAS. (Combining Eustace Smith and Prior Estimates.)

	FIR	PINE	CEDAR	HEMLOCK	BALSAM	TOTAL
STANDING	7,300 M.	200 M.	2,000 M.	3,400 M.	1,100 M.	14,000 M.
FELLED & BUCKED	900 M.	--	400 M.	500 M.	200 M.	2,000 M.
TOTAL 1,290 Ac. - 12.4 M.P.Ac.	8,200 M. 51.3%	200 M. 1.2%	2,400 M. 15.0%	3,900 M. 24.4%	1,300 M. 8.1%	16,000 M. 100%

2. ADDITIONAL TRIBUTARY TIMBER: Only Small Scattered Areas of little Logging value.

3. NOTES ON HAUL TO SALT WATER:

1. DISTANCE from DUMP to END of R.R. at 2,100 ft. elevation: 7½ Miles.
AVERAGE HAUL for SOUTHERN AREA (13,000 M.): 8½ Miles.
AVERAGE HAUL for NORTHERN AREA (3,000 M.): 7 Miles.

2. PRESENT R.R. GRADE can be converted to Truck Road at reasonable cost, say 1,500 per mile or a total of $10,000. Bridges are all short and appear in good enough condition to plank for a Truck Road..

3. ROAD BUILDING in timber appears average, with GRAVEL showing at 2,000 ft. level.

4. ADDITIONAL ROAD REQUIRED: Southern Area - 2 Miles.
Northern Area - 2 Miles.

5. DUMP needs repairing - probable cost $500.00.

6. BOOMING GROUND is of adequate size and seems well protected.
Probable Cost of New Piling required $250.00

7. TOW to VANCOUVER: 85¢ per M.

4. TITLE TO ROAD etc.

A. ROAD all on land owned by D.B. Log. Co. except

Lot. 48 (TWEEDIE) R.O.W. Rental. $500.00
Lot. 48 to WATER (SWAN) R.O.W. Rental.
South-West Part of L.88 (Reverted to Gout): TITLE presumed to be EASEMENT from GOVT.

B. BOOM GROUND (17 Acres.) and LOG DUMP:

Rental to E.&.N. R.R. $85.00
SIDING ON E.&.N. R.R. Rental. $42.00

C. CROSSING UNDER E.&.N. R.R.:

V.L.&.M. Co. has right to use this portion of R.O.W. out to Salt Water - No Charge.

5. TAXES: 1942 Taxes 7 School Assessments;

BLKS. 263, 256, 234, 267, 617, 504, 274, 566, East part of L.88, Foreshore adjoining Sec. 64, and Foreshore adjoining Sec. 2 & Lot 26:

$1,094.43

6. TITLE TO TIMBER:

ALL TIMBER is CROWN GRANT, EXPORTABLE, and NO ROYALTY.
Amount Owing E.&.N. R.R. approx. $6,000.00 (to be paid by Custodian).

2. PARCEL "B" as advertised, being C.G. Timber Lands. BLK. 276 and Timber remaining thereon.
3. DUMP, BOOMING GROUND, & FORESHORE LEASES.
4. RIGHT-OF-WAY with Steel Removed.
5. CAMP SITE and BUILDINGS.

DEEP BAY LOG. CO. TIMBER TRACT (Kagetsu-Custodian)

as of August 29th, 1943.

1. QUANTITY OF TIMBER

A. SOUTHERN AREA (Elevation 1,900' to 3,000')

	FIR	PINE	CEDAR	HEMLOCK	BALSAM	TOTAL
1. BLOCK 617 (Prior Cruise) 790 Ac.- 9.24 M.P.Ac.	2,307 M. 31.6%	140 M. 1.9%	1,420 M. 19.5%	2,581 M. 35.4%	850 M. 11.6%	7,298 M. 100%
2. BLOCK 566 (Prior Cruise) 130 Ac.- 17.5 M.P.Ac.	Approx. 836 M. 36.8%	4 M. --%	650 M. 28.6%	694 M. 30.6%	89 M. 4.0%	2,273 M. 100%
3. BLOCK 274 (Prior Cruise) 120 Ac.- 21.0 M.P.Ac.	Approx. (inc. Felled & Bucked.) 1,600 M. 64.0%	10 M. --%	250 M. 10.0%	350 M. 14.0%	300 M. 12.0%	2,510 M. 100%
TOTAL (Prior Cruise) Approx. 1,040 Ac.- 11.6 M.P.Ac.	4,743 M. 39.2%	154 M. 1.3%	2,320 M. 19.3%	3,625 M. 30.0%	1,239 M. 10.2%	12,081 M. 100%

COMMENT:

1. EUSTACE SMITH reports:
   A. BLK. 617: Prior Cruise of 7,298 M. is "all There."
   : Quality of Timber up to 2,600 ft. level is "Quite fair." (Approx. 4,300 M.)
   : Quality of Timber above 2,600 ft. level is "Short-bodied and Poor Grade." (Approx. 3,000 M.)
   B. BLK. 566: Approx. Estimate - 4,000 M.
   C. TOTAL SOUTHERN AREA will yield 13,000 M (2,000 M. of which is Felled & Bucked.)

2. K. SHAW reports:
   A. Prior Cruise of Scattered Stands, such as these, is almost invariably low.
   B. FIR up to 2,600 ft. level (4,000 M.): Med. Size, Old Growth, - 15% to 20% Peelers.
   C. HEMLOCK: Poor Quality, Butt Rot and some Shake.
   D. CEDAR: Old Growth, Med. Size and Fair Quality.
   E. LOGGING GROUND: Average.

3. CAN. WHITE PINE, reports Quality of FIR cut from this operation to be $2.00 over the average. Percentage of Peelers about 15%.

B.

B. NORTHERN AREA (Elevation 700' to 1,500')
STRIP ¼ Mile wide along Eastern Boundary of BLK. 504. (Approx. 250 Acres.)

1. Prior Cruise Maps do not show Estimate of Timber.
2. Eustace Smith Reports as Accessible Timber: 3,000 M. (12.0 M per Ac.)
   A. Almost ALL FIR, Small to Med. Size, Good Sound Quality.
   B. LOGGING GROUND: Mostly Steep Sidehill.
   C. Two short Branch Roads are required to reach the above total.

C.

C. TOTAL OF BOTH AREAS. (Combining Eustace Smith and Prior Estimates.)

	FIR	PINE	CEDAR	HEMLOCK	BALSAM	TOTAL
STANDING	7,300 M.	200 M.	2,000 M.	3,400 M.	1,100 M.	14,000 M.
FELLED & BUCKED	900 M.	--	400 M.	500 M.	200 M.	2,000 M.
TOTAL 1,290 Ac. - 12.4 M.P.Ac.	8,200 M. 51.3%	200 M. 1.2%	2,400 M. 15.0%	3,900 M. 24.4%	1,300 M. 8.1%	16,000 10[illegible]

2. ADDITIONAL TRIBUTARY TIMBER: Only Small Scattered Areas of little Logging value.

3. NOTES ON HAUL TO SALT WATER:

1. DISTANCE from DUMP to END of R.R. at 2,100 ft. elevation: 7½ Miles.
AVERAGE HAUL for SOUTHERN AREA (13,000 M.): 8½ Miles.
AVERAGE HAUL for NORTHERN AREA (3,000 M.): 7 Miles.

2. PRESENT R.R. GRADE can be converted to Truck Road at reasonable cost, say 1,500 per mile or a total of $10,000. Bridges are all short and appear in good enough condition to plank for a Truck Road..

3. ROAD BUILDING in timber appears average, with GRAVEL showing at 2,000 ft. level.

4. ADDITIONAL ROAD REQUIRED: Southern Area - 2 Miles.
Northern Area - 2 Miles.

5. DUMP needs repairing - probable cost $500.00.

6. BOOMING GROUND is of adequate size and seems well protected.
Probable Cost of New Piling required $250.00

7. TOW to VANCOUVER: 85¢ per M.

4. TITLE TO ROAD etc.

A. ROAD all on land owned by D.B. Log. Co. except

Lot. 48 (TWEEDIE) R.O.W. Rental. $500.00
Lot. 48 to WATER (SWAN) R.O.W. Rental.
South-West Part of L.88 (Reverted to Govt): TITLE presumed to be EASEMENT from GOVT.

B. BOOM GROUND (17 Acres.) and LOG DUMP:

Rental to E.&.N. R.R. $85.00
SIDING ON E.&.N. R.R. Rental. $42.00

C. CROSSING UNDER E.&.N. R.R.:

V.L.&.M. Co. has right to use this portion of R.O.W. out to Salt Water - No Charge.

5. TAXES: 1942 Taxes 7 School Assessments;

BLKS. 263, 256, 234, 267, 617, 504, 274, 566, East part of L.88, Foreshore adjoining Sec. 64, and Foreshore adjoining Sec. 2 & Lot 26:

$1,094.43

6. TITLE TO TIMBER:

C. ALL TIMBER is CROWN GRANT, EXPORTABLE, and NO ROYALTY.
Amount Owing E.&.N. R.R. approx. $6,000.00 (to be paid by Custodian).

LOGGING COMPANY ASSETS FOR SALE

Notice of Call for Tenders for Assets of

DEEP BAY LOGGING COMPANY LTD.

Fanny Bay, B. C.

Under instructions of the Custodian the undersigned is directed to call for tenders for purchase of the assets of the Deep Bay Logging Co. Ltd., generally described as follows:

A FULLY EQUIPPED RAILROAD LOGGING OPERATION INCLUDING A SUBSTANTIAL QUANTITY OF NEW WIRE ROPE AND SUPPLIES. TIMBER LANDS SAID TO CONTAIN APPROXIMATELY 17 MILLION FEET, PRINCIPALLY FIR WITH SOME HEMLOCK AND CEDAR.

The assets are offered for sale in the following parcels:

PARCEL "A." Crown Granted Timber lands in the Newcastle District, being Lot 88, Blks. 263, 234, 267, 617, 504, 274, 566 together with timber remaining thereon.

PARCEL "B." Crown Granted Timber Blk. 276 and timber remaining thereon. # 22,549

PARCEL "C." Railroad and railroad equipment including approximately eight miles of railroad, locomotive, logging cars, speeders, etc. 14,925

PARCEL "D." Three gasoline Donkeys, two with lines attached. 6.470

PARCEL "E." Three steam Donkeys with lines attached. 8.000

PARCEL "F." Road building equipment including Cletrac Tractor with bull-dozer and double drums, gasoline air compressor and attachments, etc. No Value

PARCEL "G." Camp buildings together with beds, bedding utensils, etc. 18,353

PARCEL "H." Logging supplies sundry tools, and equipment, including approximately 18,000 feet of new wire rope, rigging, tools, supplies, etc. # 70,297 "Universal Appraisal"

TENDERS WILL BE RECEIVED UP TO NOON (DAYLIGHT SAVING TIME) ON TUESDAY 31ST AUGUST, 1943, BY THE UNDERSIGNED ON THE FOLLOWING TERMS AND CONDITIONS:

(A) Tenders may be made for one or more of the above parcels or for all of the said parcels as a whole.

(B) A certified cheque to the order of the Custodian for 10% of the tender price must be enclosed therewith; subject to the condition that should the tenderer not fulfill the terms of his offer and the conditions of the Notice Calling for Tenders, his tender will be cancelled and the amount deposited by him forfeited to the Custodian as liquidated damages; cheques in respect of unaccepted tenders will be returned in due course.

(C) The assets are offered for sale withour any warranty whatsoever on the part of the Custodian or the undersigned as to title, quantity, condition of state of repair of such assets, and while a general idea thereof may be obtained from inventories in the office of the undersigned, the sale thereof shall be made in each case subject to shortages and overages, the shortages to be at the charge of and the overages for the benefit of the successful tenderer.

(D) Neither the highest nor any tender will necessarily be accepted.

(E) The purchaser and/or purchasers shall pay the usual adjustment of taxes and rentals to the date of sale.

(F) Timber lands will be sold subject to a warranty requiring the removal of the timber within a reasonable time.

(G) The envelopes enclosing offer should be marked "Tender" and addressed as follows:

P. S. ROSS & SONS,
411 Royal Bank Building,
Vancouver, B. C.

THE INVENTORIES MAY BE INSPECTED DURING OFFICE HOURS ANY DAY UP TO NOON ON THE 30th DAY OF AUGUST, 1943, AT THE OFFICE OF THE UNDERSIGNED AND ARRANGEMENTS CAN BE MADE WITH THE UNDERSIGNED FOR INSPECTION OF THE PROPERTY, EQUIPMENT AND SUPPLIES.

P. S. Ross and Sons,
Chartered Accountants,
Agents in this behalf for
the Custodian.

31st July, 1943.

Mr. Ross Pendleton,
Alberni, B. C.

Dear Ross:

Re: Deep Bay Logging Company (Kagetsu)

The enclosed advertisement appeared on July 31st, calling for tenders for the timber and the equipment, up to the 30th day of August.

1. THE TIMBER:

There seems to be about 14 Million feet of timber, 60% FIR and about 3 Million feet of Felled and Bucked, about two years old.

According to Eustace, who made a general examination of this property a week ago, this timber could be logged independently of the E.&.N. Option Area behind it. The Option Area, you will remember carried about 50 Million feet, and was given to Mr. Korner of the Alaska Pine, for some reason best known to the C.P.R. Mr. Korner has arranged with Ted Robson to log it for him.

Korner has already put his bid in on this Deep Bay timber, which so annoyed the Custodian, that it is unlikely the Custodian will deal with Korner on any terms.

I am planning to take a quick look on the timber early this coming week, and if it seems to be a show that can be logged independently of the Korner option timber, I feel we should put in a bid.

2. THE EQUIPMENT IS DIVIDED INTO SIX PARCELS:

The Custodian's Office has had these various Parcels valued by the Universal Appraisal Company (Mr. Skelding) who based his appraisal on what he considered to be the present value of the equipment. Nothing is added for value as a going concern, and used tools, etc., have been valued at 50% of their present cost.

This appraisal is being kept private by the Custodian's Office, but I have received a summary of the valuation of each Parcel. These figures appear in Red Pencil on the attached copy of the advertisement.

LOGGING COMPANY ASSETS FOR SALE

Notice of Call for Tenders for Assets of

Ross Pendleton - 2 - August 20th, 1943.

Re: Deep Bay Logging Company (Kagetsu)

The valuation as a whole, appears to be reasonably low--in addition I notice that the locomotive was valued at $5,000.00, and the speeder, which is reported to be a very good one, is valued at $4,000.00.

I don't know whether this equipment is of interest to you or not, but I felt that I should pass on any information that I got concerning it. I am also enclosing a inventory of the equipment and a map which I have promised to return as soon as possible, to the Custodian's Office.

I will get in touch with you again, as soon as I have got a more definite impression of the timber.

Yours very truly,

H. R. MacMILLAN EXPORT COMPANY LIMITED

LOGGING COMPANY ASSETS FOR SALE

Notice of Call for Tenders for Assets of

DEEP BAY LOGGING COMPANY LTD.

Fanny Bay, B.C.

Under instructions of the Custodian the undersigned is directed to call for tenders for purchase of the assets of the Deep Bay Logging Company Limited, generally described as follows:

A fully equipped railroad logging operation including Timber lands said to contain approximately 17 million feet, principally fir with some hemlock and cedar.

The assets are offered for sale in the following parcels:

Parcel "A." Crown Granted Timber lands in the Newcastle District, being Lot 88, Blks. 263, 234, 267, 617, 504, 274, 566, together with timber remaining thereon.

Parcel "B" Crown Granted Timber Blk. 276 and timber remaining thereon.

Parcel "C" Railroad and railroad equipment, including approximately eight miles of railroad, locomotive, logging cars, speeders, etc.

Parcel "D" Three gasoline Donkeys, two with lines attached.

Parcel "E" Three steam Donkeys with lines attached.

Parcel "F" Road building equipment including Cletrac Tractor with bulldozer and double drums, gasoline air compressor and attachments, etc.

Parcel "G" Camp buildings together with beds, bedding utensils, etc.

Parcel "H" Logging supplies, sundry tools, and equipment, including approximately 18,000 feet of new wire rope, rigging, tools, supplies, etc.

Tenders will be received up to noon (Daylight Saving Time) on Tuesday, 31st August, 1943, by the undersigned on the following terms and conditions:

(a) Tenders may be made for one or more of the above parcels or for all of the said parcels as a whole.

(b) A certified cheque to the order of the Custodian for 10% of the tender price must be enclosed therewith; subject to the condition that should the tenderer not fulfill the terms of his offer and the conditions of the Notice Calling for Tenders, his tender will be cancelled and the amount deposited by him forfeited to the Custodian as liquidated damages; cheques in respect of unaccepted tenders will be returned in due course.

(c) The assets are offered for sale without any warranty whatsoever on the part of the Custodian or the undersigned as to title, quantity, condition or state of repair of such assets, and while a general idea thereof may be obtained from inventories in the office of the undersigned, the sale thereof shall be made in each case subject to shortages and overages, the shortages to be at the charge of and the overages for the benefit of the successful tenderer.

(d) Neither the highest nor any tender will necessarily be accepted.

(e) The purchaser and/or purchasers shall pay the usual adjustment of taxes and rentals to the date of sale.

(f) Timber lands will be sold subject to a warranty requiring the removal of the timber within a reasonable time.

(g) The envelopes enclosing offers should be marked "Tender" and addressed as follows:

P. S. ROSS & SONS,
411 Royal Bank Building,
Vancouver, B.C.

The inventories may be inspected during office hours any day up to noon on the 30th day of August, 1943, at the office of the undersigned and arrangements can be made with the undersigned for inspection of the property, equipment and supplies.

2 only 6 volt storage batteries at Royston Machine Shop

December 7, 1942

DEEP BAY OPERATION OWNED BY KAGETSU

Now being offered for sale by Carl Stewart, attorney for Kagetsu, at a reported price of $125,000.00.

The Custodian's office report that they intend to ask for tenders on this property in about a month's time, as Stewart is not making any headway in his attempts to sell it for Kagetsu.

The main reason that this property is not saleable is that the E&N area adjoining this property, which is reported to carry from 26 to 50 Million feet, has been optioned to Korner.

ASSETS:

1. Railway - 8 miles constructed.
2. Complete logging outfit - gas and steam.
3. Camp and equipment with a considerable amount of new supplies.
4. Timber - reported 17 Million ft.

NOTE:

Various parties investigating this timber have reported that only 8 to 15 Million feet of this timber can be considered accessible.

April 9, 1942

April 10, 1942

Memo: ALPINE LODGE TIMBER TRACT, P.G.E. on East Side Cheakamus River, T.L. 34909, 34910 and 34911, 22 miles from Squamish.

Timber was purchased by the Powell Wood & Coal Co. (Japanese), Yanamoka & Son (Sawmill near Sugar Refinery now being dismantled as part of site has been requisitioned.)

TIMBER Purchase price $37,000 of which $10,000 has been paid. The Japs have spent $26,200 in opening up the tract--road building and bridge over Cheakamus River. Timber agreement calls for building a small mill to cut small timber; said mill not yet started.

The Price asked by Japs for the property now is $26,200 plus the balance owing on the timber of $27,000, plus $10,000 payment = $63,200.

The following is a comparison between two cruises of the property, one made by Tuller, date unknown, and the other by Eustace Smith Ltd. about 1937:

	Tuller Cruise	Eustace Smith Ltd. Cruise (1910 Acres)	
FIR	17,837 M	12,115 M 55.3%	67.7%
SMALL FIR	4,796 M	2,620 M 12.0%	
CEDAR	3,739 M	1,980 M 9.0%	
PINE	642 M	505 M 2.3%	
HEMLOCK	4,479 M	3,145 M	21.4%
SMALL HEMLOCK	2,152 M	1,395 M	
Balsam	-	145 M	
TOTAL	33,645 M	21,905 M	
CEDAR POLES	7,343 P.	3,520 P.	
	28 M P.Ac.	18 M P.Ac.	

E. S. L. Cruise reports the Timber as small, but fine grained and sound. 50% of logs are of peewee size. No No. 1 GRADE.

Freight haul of logs on P.G.E. to Squamish reported $2.10 per M. SHIPPING WEIGHT of lumber estimated 200 lbs. per M lighter than coast lumber.

Custodian: No enemy interest involved in ownership, so Yonamoka free to make deal.

Sept. 29/42 Reported by Mr. Gladman to have been purchased by Mr. Ronald Graham and Mr. Nalos of the North Shore Lumber Company. PRICE: $60,000.00. Logging operations have already begun.

July 1st. Applications / Lease 657 (South Arm Nanaimo River for Blk. B. Th. 1A 172) to be advertised in near future for sealed tenders. Bidders who already own timber around NANAIMO LAKE. of interest to A.R.? note to Ross Boyd.

April 9, 1942

JAPANESE PROPERTIES - Custodian of Alien Properties

(1) KAGETSU - Mr. Kagetsu is still under an investigation by the Custodian. July 2nd Properties now in EVACUEE CLASS handled by Custodian. ENEMY INTEREST of MITSUI still suspected & KAGETSU may be required to produce proof of innocence.

Deep Bay Logging Co, Fanny Bay - The blocks that are being operated by this logging company are in the name of Kagetsu personally. Blocks 267, 276, 234, 256, 263, and 198 have been logged off. The properties still carrying timber are blocks 566, 274, 617 and 504. These are reported to have about 50,000 M feet of timber remaining. Adjoining C.P.R. Timber reported held by McBain for KOERNER. July 2nd

The Deep Bay Logging Co. owns the logging equipment.

Mr. Kagetsu is also the owner of block 195 adjoining the V. L. & M. block 7A on the south side of the Cowichan River about 7 miles from the foot of the Lake. This block has been cruised by Eustace Smith Ltd. at about 30,000 M feet.

(2) ROYSTON LUMBER COMPANY - E.J. Uchiyama

Sawmill and logging equipment insurance appraisal $200,000.00

Timber - 50/60,000 M feet.

Value of lumber in yard $35,000.00

Reported option given by Uchiyama first to V. L. & M. Co. and second to A. Simpson. neither OK'd by Custodian. - Now open June 7th.

Note: As Royston Lumber Co. is still under investigation order any deal must be O.K'd by the Custodian. July 2nd. No enemy interest established but property now in category of "EVACUEE CLASS" - handled by CUSTODIAN & to some extent requiring O.K. from owners. Sale or OPERATION may be forced by Tm. Cont.

(3) N.S. McNEILL COMPANY - now being operated by the Custodian.

Logging contracted to C. & A. Logging Co.

This property consists of a large tract of crown granted timber, cedar and pulp. The hemlock is now being exported and sold to the Crown Zellerbach Corp. and Mr. Field reports a price received of $19.50 April 8th.

Block

Now open June 7th

Reported (WRAYS) to be soon advertised for tenders, as UCHIYAMA will not set price, and TIMBER CONTROLLER may insist on property being operated.

MBL - Real estate

1066-99

— PLAN —

WEST OF BK. 274 & SOUTH OF BK. 504
NEWCASTLE DISTRICT

(4) QUEEN CHARLOTTE ISLAND TIMBER CO. - Fukuwawa

(a) Mosquito Lake Tract lying at the head of Cumshewa Inlet, Moresby Island. Two logging operators, the J.R. Morgan Co. and A.B. Allison Co., are now building roads which will probably be extended into the Japanese property around Mosquito Lake. Various areas of spruce adjacent to the lake will be available.

(b) Church Creek - This tract is now being logged by the Kelley Logging Company.

(c) Thurston Harbour & Sewell Inlet - The waterfront on these two tracts was all logged some years ago by the J.R. Morgan Company and most of the available spruce removed. On the remaining area there are still some good stands of hemlock, particularly on Sewell Inlet which may have logging value before long.

(5) CAMERON LAKE LOGGING CO., Parksville Sold to Belyea

This area was put up for sale and tenders asked for. It was reported at the Custodian office that one bid in particular for the entire assets of the company is at present receiving favourable consideration.

JAPANESE PROPERTIES NOT UNDER CONTROL OF CUSTODIAN

(a) Powell Lumber & Fuel Co. - see separate memo

(b) Riverside Company at Ruskin,
Watanabe at Duncan

(c) Takahachi Logging in ~~Cold~~ Creek near Knights Inlet. (Called June 8th offered for sale by Clerk @ 11,500 (Sold to Bill Clarke of Heden Victoria Harris, May 26/42)

~~DKS:ED~~

April 16th. B. Wray sent to Vancouver Id. by Custodian to take charge of Kagetsu & Ochiyama operations, Jimmy Bay & Royston, in name of Custodian

July 2nd. Wray reports of record:
1. Blk. 403 owned by Mitsui - enemy interest established in Green Timber Co. Lake logging is expected to complete deal shortly for Blk. 403, after which Blk. 195 will be considered.
2. Blk. 195 owned by Kagetsu - enemy interest not yet established - but connection with Mitsui suspected. No down payment known from Lake logging, and deal not considered to have advanced to any binding stage. We will be notified when Blk. 195 is open for dealing re.

Attention Mr. Sheppard:

Dear Sirs:

Referring to the agreement of the 13th of March, 1944, between the Honourable the Secretary of State of Canada, Deep Bay Logging Company Limited and H. R. MacMillan Export Company Limited, this is to confirm that we have been instructed by H.R.MacMillan Export Company Limited to agree that for the date the "31st of May, A.D. 1944" where it appears in line 9, of clause 8, and for which the date the "30th of June, A.D. 1944" was later substituted, the date "31st of July, A.D. 1944" may be substituted.

It is understood that in consideration of this extension, the date of adjustments of all taxes, forest protection dues, lease rentals, etc. is to be as of the 30th of June, A.D. 1944, and not as of the 31st of December, A.D. 1943, as provided in the agreement.

We would be obliged if you would kindly confirm this.

Yours truly,

DAVIS & CO

Vancouver, B. C.

Att'n Mr. Marshall

Dear Mr. Marshall:

Referring to the Agreement of March 13th, 1944, between the Secretary of State of Canada, the Deep Bay Logging Company Limited, and the H. R. MacMillan Export Company Limited, we instructed Mr. Hossie, of Davis & Company, to agree to an extension of time from the date May 31st, appearing in line 9 of clause 8, to the date of June 30th. Mr. Hossie agreed, on our behalf, to this extension in his letter of April 6th, 1944, to Mr. Sheppard.

Mr. Field, the controller of the Deep Bay Logging Company Limited, now wishes this date extended from June 30th to July 31st.

In return for the granting of this extension, the Custodian is willing to adjust the payment of all taxes, forest protection dues, lease rentals etc., as of June 30th, 1944.

The Agreement referred to above, of March 13th, 1944, sets out that all payments of taxes, lease rentals etc., for the year 1944, will be paid by us.

This letter is to instruct you to agree, on our behalf, to the arrangement set out above, that is, to the extension of time to July 31st, 1944, in return for which the Custodian is to agree to the date of adjustment of taxes, lease rentals etc. as of June 30th, 1944.

Keith Shaw, Esq.,
H.R. MacMillan Export Company, Limited,
837 West Hastings Street,
VANCOUVER, B.C.

Dear Sir:-

Re - The Custodian, Deep Bay Logging Company and H.R. MacMillan Export Company

I now have the agreement. It is signed by the Custodian and by Mr. Field as Controller of Deep Bay Logging Company Limited. I also have a copy of the agreement between the Company and Mrs. Tweedie. This is signed by Mrs. Tweedie and by Mr. Field as Controller of the logging company. Another agreement, however, bears the impress of the Seal of the company.

Mr. Sheppard informs me that search has been made in all likely places, but the Seal has not been found and the assumption is, therefore, that Kagetsu either has it, hid it or destroyed it. They propose to call a meeting of the shareholders of the Deep Bay Logging Company Limited, which is a simple matter as the shares are all held by the Custodian, and have a fresh Seal authorized. As soon as this has been done they will affix it to the documents. In the meantime we have them for what they are worth.

The extension of the date for removal of steel from May 31st to June 30th has been covered by a letter, of which copy is enclosed.

They are going to give us a bill of sale covering the release, but without any warranty of title, of course, like the other documents. As soon as these are prepared they will be sent over.

Sheppard has just telephoned me today to say that a letter has been received from the E. & N. Railway, reminding the company that the agreement between the E. & N, Deep Bay

Re: Deep Bay Logging Company Timber Lands at
Fanny Bay, Vancouver Island.

Dear Neil:

Enclosed is a copy of a call for tenders for the assets of the Deep Bay Logging Company, and a copy of an offer submitted by us on August 31st, 1943.

You will note that Item #5 of our offer includes the Right-of-way from the timber to the dump, with the steel removed. Owing to an agreement made by the Deep Bay Logging Company and the Victoria Lumber and Manufacturing Company, the Custodian is unable to remove the steel from about one mile of the Right-of-way. We are considering foregoing this stipulation about the removal of the steel from the one mile area mentioned, and are now coming to an arrangement about it.

Mr. Field tells me that Mr. Sheppard has the matter of the Right-of-way and various Leases in hand, and would be glad to discuss it with you.

Dear Thor:

Thank you very much for the use of your tracing. We made a print of it yesterday, and have sent the tracing by mail, addressed to you at Camp 7.

I have been getting some information about the proposed planking of a Railroad grade, and find that The Vedder Logging Company near Chilliwack used this idea quite successfully over three-quarters of a mile of their operation. This shows at least that the idea is practical.

I expect to be in Victoria within the next week, and will have a chat with the Deputy Minister of Railways.

Yours very truly,

October 5th, 1943.

Mr. Jack Prescott,
Terminal City Club,
Vancouver, B. C.

Dear Jack:

Enclosed is an inventory of the Equipment, Parcels C, D, E, F, ~~A~~, & H. Parcel "G", camp building and camp equipment has been included in the bid for timber. Noted on each Parcel in red, is the appraised values, placed by the Universal Appraising Company (Mr. Skelding).

The Railroad Equipment, Logging Cars, Steel etc., is of no particular interest to us, and is practically promised to one of the other bidders. The twoSpeeders, however, might be of value, and can be acquired separate from the rest of Parcel "C".

The question is, how much of this Equipment is of value to us either for an operation to log the timber ~~[illegible]~~ up the grade, or for use in any of our other operations.

I should imagine the bids received on these different Parcels have been very much below the appraised values, and I think it likely that we could acquire all these different Parcels for a very low total bid.

Enclosed is a letter of introduction to the caretaker.

Incase you are not familiar with the location of the camp, the following directions may be of use.

The combined V.L.&.M. and Deep Bay Logging Company Railroads cross the Island Highway about one-half mile South of the Forester Hurndall Mill. You follow up the Railway until it passes under the E.&.N. Railwy, and take then the grade to the left. The camp is about one-half a mile up the track from this junction.

Yours very truly,

H. R. MacMILLAN EXPORT COMPANY, LIMITED

Re: DEEP BAY LOGGING COMPANY LIMITED
ASSETS ADVERTISED 31st of JULY, 1943.

Dear Sir:

We submit an offer of Forty Thousand Dollars ($40,000.00) cash for the following assets.

1. PARCEL "A": Crown Granted Timber Lands in the New Castle District, Lot 88, Blocks 263, 234, 267, 617, 504, 274, 566 together with timber remaining thereon.

2. PARCEL "B": Crown Granted Timber, Block 276 and timber remaining thereon.

3. PARCEL "G": Camp Buildings together with beds, bedding, utensils etc.

4. Log Dump, Booming Ground, and Foreshore Leases.

5. Right-of-way from timber to dump, with steel removed.

We agree to the usual adjustments of taxes and rentals to the date of sale, and to the warranty requiring the removal of timber within a reasonable time.

Our cheque, Four Thousand Dollars ($4,000.00), the required ten percent of the tender, is enclosed.

FOLDER No. 1066-

2. ADDITIONAL TRIBUTARY TIMBER: Only Small Scattered Areas of little Logging value.

3. NOTES ON HAUL TO SALT WATER:

1. DISTANCE from DUMP to END of R.R. at 2,100 ft. elevation: 7½ Miles.
AVERAGE HAUL for SOUTHERN AREA (13,000 M.): 8½ Miles.
AVERAGE HAUL for NORTHERN AREA (3,000 M.): 7 Miles.

2. PRESENT R.R. GRADE can be converted to Truck Road at reasonable cost, say 1,500 per mile or a total of $10,000. Bridges are all short and appear in good enough condition to plank for a Truck Road..

3. ROAD BUILDING in timber appears average, with GRAVEL showing at 2,000 ft. level.

4. ADDITIONAL ROAD REQUIRED: Southern Area - 2 Miles.
Northern Area - 2 Miles.

5. DUMP needs repairing - probable cost $500.00.

6. BOOMING GROUND is of adequate size and seems well protected.
Probable Cost of New Piling required $250.00

7. TOW to VANCOUVER: 85¢ per M.

4. TITLE TO ROAD etc.

A. ROAD all on land owned by D.B. Log. Co. except

Lot. 48 (TWEEDIE) R.O.W. Rental. $500.00
Lot. 48 to WATER (SWAN) R.O.W. Rental.
South-West Part of L.88 (Reverted to Gout): TITLE presumed to be EASEMENT from GOVT.

B. BOOM GROUND (17 Acres.) and LOG DUMP:

Rental to E.&.N. R.R. $85.00
SIDING ON E.&.N. R.R. Rental. $42.00

C. CROSSING UNDER E.&.N. R.R.:

V.L.&.M. Co. has right to use this portion of R.O.W. out to Salt Water - No Charge.

5. TAXES: 1942 Taxes 7 School Assessments;

BLKS. 263, 256, 234, 267, 617, 504, 274, 566, East part of L.88, Foreshore adjoining Sec. 64, and Foreshore adjoining Sec. 2 & Lot 26:

$1,094.43

6. TITLE TO TIMBER:

ALL TIMBER is CROWN GRANT, EXPORTABLE, and NO ROYALTY.
Amount Owing E.&.N. R.R. approx. $6,000.00 (to be paid by Custodian).

"C O P Y"

AUGUST 16th. 1943

REPORT ON INSPECTION TRIP TO DEEP BAY LOGGING COMPANY OPERATION, FANNY BAY, B. C.

I made a general examination of the timber that was still remaining when this Operation was closed down early in 1942, and while this was not a systematic cruise, the check I made should give a fair idea of the amounts accessible.

I found that the Map supplied by the Company was reasonably accurate as to location of the different patches of timber.

A large part of the timber on Lots 566 and 617 lies at a high elevation, all above 2,000 feet above sealevel, but a grade - with steel laid - is projected up to the boundary of these two Lots and a considerable quantity of timber - estimated at 2 million feet - is Felled and Bucked, and Spar Trees rigged to Yard in these logs to rail side.

The FIR and CEDAR in this Felled and Bucked timber is still good, but I would not count on the HEMLOCK and BALSAM.

The upper portion of Lot 617 carries a poor class of timber, with short bodied, old growth FIR and CEDAR and a poor grade of HEMLOCK and BALSAM, but the portion of this Lot lying below the 2,600 foot level is quite fair timber. Lot 617 is practically intact, and my check would indicate that the cruise of 7,298 M. feet is all there.

On Lot 566 there have been about 50 acres logged, but I would judge that there is left about 4 million feet of timber on this Lot.

That area lying below the main line of Railway on Lot 504 is mostly steep side hill and carries fair timber, practically all FIR of small to medium

MBL - Real estate transaction
Alpine timber tract no. 12 - 1942 - 1945
Deep Bay Logging Co. reports, etc.
FOLDER No. 1066

size, good sound quality, and I would judge that there are about 3 million feet accessible, but two short branch roads will be required to reach the accessible portion of the stand.

I would judge that there will be in all about 14 million feet of timber that can be taken out from these holdings, but it must be borne in mind that the most accessible portion of these Blocks has been removed and what timber is left is costly to log and of only fair quality - consequently, not of high value.

The Felled and Bucked timber will be in addition to the above amount, but should be taken out in the near future.

The Railway is in fair shape and what Bridges there are, can be easily put in condition for hauling, either by using the Railway, or by converting the Railway grade into a Truck Road.

The other matter I looked into was the possibility of making use of this outlet for the removal of timber from the E. & N. tract that has been taken over by Mr. Korner of the Alaska Pine Company, and I would like to report as follows:-

The main Railway grade would not be of value on account of the high elevation of the road, although it would be possible to use an old grade on the low elevation - which was used by the Deep Bay Logging Company in the early part of their Operation, on which the steel has been taken up. However, other outlets are available for an Operator of the E. & N. timber Block and the logging of that tract is not dependent on the Deep Bay outlet.

I have built up a sketch plan of the Deep Bay Operation, copy of which is enclosed herewith.

The small piece of timber colored in GREEN and lying to the East of Lot 276 was not examined, but evidently carries very little timber, but could be included with the rest of the stand.

I feel that we now have sufficient information to be in a position to judge as to whether the Bids received for this property are reasonable as to value.

Total Acres. 450. Timber Acres. 417. Total F.B.M. 7,807,100. Timber Area = 18.7 M Per Ac.

General.

No Cedar poles in this Area. Small timber is scrub Cedar Scrub Hem + small Bal. Stand is over mature with dense scrub and heavy reproduction in parts. An analysis of No of Fir trees per Ac. will show that Fir scale is largely made up of Scattered Old Growth Fir. There being no definate stands excepting in N. portion of 1. N.W. portion of 2. Centre + E. portion of 3. N - S portions of 11. and the S. Central portion of 8.

Cedar and Hemlock on the whole defective. Bal. fair. some Fir good. Majority of Old Growth is tall and bunch top, and while showing no visible defects other than a dry tip, may possibly develope internal defects when felled.
