My reason for signing, was that even if we went out East, I have three children going to school, and we would not be able to get along, with just myself working. This being the case there was no alternative but to sign.

At the time of registering, the R.C.M.P. informed us that we may cancel this form any time we wish, and this being the case we signed.

Our family consisting of five children all under age, therefore the question of relocation was an impossibility. We were also uncertain of the living conditions in the new environment out east and there were many other uncertainties such as labour conditions and education for the children. At the time of signing, it was understood that we would lose our jobs if we did not sign so I signed to maintain my job. All my children were born in this country and they would like to stay in Canada. It is their country by birth and it would be difficult for them to adapt themselves to a new country. We would also like to stay in Canada with our children very much.
