

KUNIO HIDAKA AND ASSOCIATES

Economists and Social Scientists

200 BAY ST. :: TORONTO, ONT.

EMPIRE 3-5692

August 1, 1951.

Dear Sir or Madam:

I am writing to let you know something about ourselves - who we are and what we do - in order that you too may join the many Japanese Canadians in Toronto and other parts of Canada who use our services when they meet with personal, social and business problems.

W H O W E A R E

We are a firm of economists, psychologists, and social and political scientists giving research and consulting services. Our staff has been carefully selected on the basis of their professional training and personal competence as indicated by the outstanding work they have done in their respective fields. As background they are experienced in private business, social work agencies, university teaching and government. Because of this wide range of experience you may be assured that we offer excellent service, not only in business and economic matters, but also in personal, family and community problems.

W H A T W E D O

We are serving clients who are buying homes and businesses by advising on the suitable price, the appropriateness of the location and the likely future development of the neighbourhood. For clients who invest in securities we report on the merits of one type or another and on the economic position of the company or industry. We also assist individuals and firms on tax problems, customs and tariff regulations, pricing and marketing, and claims in accident and other financial matters.

O U R O T H E R S E R V I C E S

For the particular convenience of Japanese Canadians we assist in applications to governments in matters which include (a) citizenship, (b) immigration from Japan and other countries, (c) travel and residence in Japan, the United States and elsewhere, (d) old age pensions, and (e) other applications and representations to government departments, boards and commissions, whether federal, provincial or municipal.

When your children are ill, because health is important, you call only doctors who are professionally qualified and competent. Likewise, when in need of advice on economic and government matters, you should also retain only professionally qualified personnel.

Yours very truly,

Kunio Hidaka

Dear Sir or Madam:

I am writing to let you know something about ourselves - who we are and what we do - in order that you too may join the many Japanese Canadians in Toronto and other parts of Canada who use our services when they meet with personal, social and business problems.

WHO WE ARE

We are a firm of economists, psychologists, and social and political scientists giving research and consulting services. Our staff has been carefully selected on the basis of their professional training and personal competence as indicated by the outstanding work they have done in their respective fields. As background they are experienced in private business, social work agencies, university teaching and government. Because of this wide range of experience you may be assured that we offer excellent service, not only in business and economic matters, but also in personal, family and community problems.

WHAT WE DO

We are serving clients who are buying homes and businesses by advising on the suitability of the appropriate location and the likely future development of the neighbourhood or clients who invest in securities we report on the merits of one type or another on the basis of the economic position of the company or industry. We also assist individuals and firms with tax problems, customs and tariff regulations, pricing and marketing, and claims in accident and other financial matters.

OUR OTHER SERVICES

For the particular conveniences of Japanese Canadian assistants in applications governments in those areas which include (a) citizenship, (b) registration from Japan or other countries (c) travel and visas in Japan, the United States and elsewhere, (d) ad valorem duties, and (e) other applications and representations to Government departments, boards and commissions, whether federal, provincial or municipal.

When your children are ill, because this is important, you will only want to call on a doctor who is professionally qualified and experienced. Likewise, when in need of advice on economic and government matters, you should call on only professional persons.

Yours very truly,

Kunio Hidaka
