Toronto, Ontario.

Dear Roger:

This outline of a documentary brief on evacuation for the Royal Commission is a first draft and sent to you as a basis for further discussion, in keeping with our understanding of last Sunday.

I'll get started on the other section dealing with losses not covered by the Commission, and will try to have it ready by the end of the week. The content of this second brief will, to a great degree, depend on the material in the first.

Yours sincerely,

Kunio Hidaka.
