

One Gross

8 x 10

**KODAK
DRY MOUNTING
TISSUE**

INSTRUCTIONS

Attach a sheet of tissue to back of print by touching with the hot tacking iron. Trim to size required.

Place print with tissue attached in proper position on mount and tack corners of tissue to mount with iron.

Cover face of print with clean paper, place in dry mounting hot press and apply pressure for 10 seconds at a temperature of 185° F. to 250° F.
