

I was born in Canada and considered a Canadian citizen on account of my birth, but I also have nationality in Japan, so today I am a possessor of the so-called dual citizenship.

In the past, I have done my utmost to fulfill my duty as a Canadian citizen, and I have succeeded in it.

Unfortunately on December 7th., 1941, a state of war was declared between Japan and Canada. On that occasion, we who are recognized as Canadians received the same treatments as Japanese nationals or as enemy aliens. And at the present time, I am confined in this internment camp as a prisoner of war. I clearly understand that my honour as a Canadian citizen has been deprived by the above mentioned fact. So when I think of my future, I firmly believe that my future lies in Japan, where my rights as a Japanese citizen are fully recognized, where my freedom and expansion are possible, and where my dear parents are in wait for me.

Now after much thought I have arrived at the conclusion that the only way I can fulfill my desire is to renounce my Canadian citizenship.

So Your Honour, will you kindly take the proper procedure whereby I can renounce my Canadian citizenship.

I enclose the necessary items in connection with my renunciation of Canadian citizenship.
