THURSDAY MAR 2 - 1944
CANADA

DEPARTMENT OF THE SECRETARY OF STATE

RETURN TO AN ORDER OF THE HOUSE OF COMMONS,
dated February 14th, 1944, showing:-

1. How many persons of Japanese origin are permitted to live and to do business or work in the prohibited area in British Columbia.
2. Have any persons of Japanese origin who were removed from the prohibited area in British Columbia been granted permission to visit the Pacific coast prohibited area. If so, how many permits have been issued, and for what reasons.
3. How many radio receiving sets are in use in each camp where persons of Japanese origin are located in the interior of British Columbia.
4. Which of the said camps have schools, how many, what are the names of the teachers, and what are the qualifications of these teachers.
5. What salary is paid to each school teacher in camps where Japanese are located.
6. What are the names, addresses and business or occupation of persons of Japanese origin who are allowed to remain in prohibited areas. *M.*

The attached information has been received by the Secretary of State of Canada from the Department of Labour.

Secretary of State of Canada.

Reference No. 18
Mover: Mr. Fraser (Peterborough West)
Dated: February 26, 1944.

NOTE
THIS FILE MUST BE RETURNED
TO THE CHIEF CLERK OF
PARLIAMENTARY PAPERS
Room 167, House of Commons.

Reference No. 18

Date: February 14, 1944.

Mover: Mr. Fraser (Peterborough West)

ORDER OF THE HOUSE OF COMMONS

1. How many persons of Japanese origin are permitted to live and to do business or work in the prohibited area in British Columbia?

2. Have any persons of Japanese origin who were removed from the prohibited area in British Columbia been granted permission to visit the Pacific coast prohibited area? If so, how many permits have been issued, and for what reasons?

3. How many radio receiving sets are in use in each camp where persons of Japanese origin are located in the interior of British Columbia?

4. Which of the said camps have schools; how many; what are the names of the teachers, and what are the qualifications of these teachers?

5. What salary is paid to each school teacher in camps where Japanese are located?

6. What are the names, addresses and business or occupation of persons of Japanese origin who are allowed to remain in prohibited areas?

Ottawa, Feb. 25, 1944.

ANSWER OF THE DEPARTMENT OF LABOUR

Return attached hereto.

Ami Hamara
Deputy Minister of Labour.

The Under-Secretary of State,
Department of the Secretary of State,

1. Ninety-four (94).

2. Yes, 130 since 1942:

Subpoenas	-	33
Funeral services	-	19
Special medical care and hospitalization	-	39
Interviews with Custodian	-	27
Personal business matters	-	12
Total	-	130

3.	New Denver	-	21
	Rosebery	-	13
	Kaslo	-	19
	Slocan	-	30
	Lemon Creek	-	24
	Sandon	-	26
	Greenwood	-	11
	Tashme	-	60
	Total	-	204

(All of these are without short-wave bands). [See]

4. (a) All settlements have schools.

(b) There are eight schools operated by the Commissioner of Japanese Placement, including two in Slocan area, and at Greenwood the Japanese children attend local and church schools.

(c) Names of teachers listed in answer to question 5. With few exceptions the Japanese teachers are university graduates or former university students. They have all attended the summer school of one month in 1943 at New Denver, B.C., where they were instructed in teaching methods and school administration by expert educationalists. The Supervisor and Assistant Supervisor, Misses Hyodo and Hidaka respectively, are Normal School graduates and experienced teachers in the British Columbia system.

5. Names of teachers and salaries.

Supervisor - Hyodo, H. - \$75.00 per month

Asst. Supervisor - Hidaka, T. - \$65.00 per month

DEPARTMENT OF LABOUR
COMMISSIONER OF JAPANESE PLACEMENT
ORDER NO.1 (New Series)

Order Governing Movement of Persons of the Japanese Race
in Canada.

Pursuant to the provisions of Order-in-Council P.C. 946 of February 5th, 1943, the following Order is hereby made:

1. Travel Order number one (New Series) dated July 30th, 1943, issued by the Commissioner of Japanese Placement pursuant to Order-in-Council P.C. 946 of February 5th, 1943, with the approval of the Minister of Labour, is revoked and the following substituted therefor:

No person of the Japanese race shall, without having first obtained a permit therefor from the Royal Canadian Mounted Police Force,

- (a) enter any area declared to be a protected area under the Defence of Canada Regulations;
- (b) cross any provincial boundary line;
- (c) travel for any purpose in the Province of British Columbia a distance of more than fifty miles;
- (d) change his place of residence;
- (e) if resident in the Province of British Columbia, remain absent from his place of residence for more than eight days;
- (f) if resident outside the Province of British Columbia, remain absent from his place of residence for more than thirty days.

2. Notice is hereby given that under the provisions of Section four of Order-in-Council P.C.946 of February 5th, 1943, any person of the Japanese race who contravenes any of the provisions of this Order, shall be guilty of an offence and liable upon summary conviction to a fine not exceeding Five Hundred Dollars or to imprisonment for a term not exceeding Twelve months or to both such fine and such imprisonment.

3. This Order shall come into effect on the _____ day of January, 1944.

Dated at Ottawa this _____ day of January, 1944.

RECOMMENDED:

George E. Collins,
Commissioner of
Japanese Placement

APPROVED:

Humphrey Mitchell,
Minister of Labour.

similar places of amusement and to Part VI covering the "Entertainment Tax". Enforcement of the last mentioned provision of the Act requires the close attention at all times of our Detachment personnel in those Provinces wherein the Provincial Statutes permit the retail of spirituous liquors by hotels and clubs, etc. The tax of twenty-five per cent is applicable to all goods or services purchased where facilities are provided simultaneously for the sale of alcoholic beverages and dancing.

DEFENCE OF CANADA REGULATIONS

These regulations still require a large number of investigations by this Force although there is a substantial reduction. On the other hand our work under censorship has increased and the same remark applies to our duties under the Wartime Prices and Trade Board Regulations. The statistics for the various items will be found in Appendix "C" of this report.

INTELLIGENCE BRANCH

The work of this Branch is naturally heavy and is of much importance, but it is not deemed advisable to publicize our operations at the present time.

Enemy Alien Registration.—It may be of interest to record that there are 3,113 officials functioning throughout the Dominion in connection with the enemy alien field work. Of this number 622 are registrars who are qualified to register and parole, and issue exemption certificates as well as accept reports, while 2,491 are "Reporting Officials" only. The Registrars are all members of this or some other police force whilst the "Reporting Officials" are chiefly postmasters. Neither appointment is remunerative.

The revocation of Regulation 26B of the Defence of Canada Regulations which occurred in December, 1942, resulted in considerable work throughout the current year in the way of cancellations of parole certificates and exemption certificates previously issued to persons naturalized in Canada since September 1st, 1922 who, prior to becoming British Subjects were citizens of countries with whom we are now at war.

Also, during the year under review a large number of Italian and Austrian nationals availed themselves of the privilege of exemption extended them by the amendment to Regulation 26C of the Defence of Canada Regulations made in December, 1942.

The following statistics reflect by nationality the numbers of enemy aliens bearing parole and exemption certificates as of March 31, 1944:—

	Aliens on Parole	Aliens on Exemption
Germans	7,431	4,682
Italians	4,753	6,771
Austrians	1,650	1,337
Fins	60	13,376
Hungarians	110	8,711
Roumanians	104	4,661
Japanese	5,570	211
	<u>10,078</u>	<u>39,749</u>

Seven Exeats were granted by the Registrar General of Enemy Aliens during the year, three being for permanent departure from Canada. The drop from 154 Exeats issued the previous year is largely attributable to the amendments to Regulations 26B and 26C previously mentioned.

As a result of Order in Council P.C. 9440 enacted in December, 1943, 934 enemy alien refugees who were transferred to Canada from the United Kingdom under detention and who were subsequently released here, underwent

a change of status in that insofar as the Defence of Canada Regulations are concerned their position was rendered similar to that of any enemy alien ordinarily resident in Canada. These refugees are presently being examined by local Registrars of Enemy Aliens and where nothing of an adverse nature is known concerning them they are being provided with exemption certificates in place of the parole certificates previously issued them.

The following are the statistics of the Section with respect to internments:—

	In Internment 31-3-44	Interned during year	Released during year
German nationals	152	2	44
Italian "	2	0	19
Japanese "	168	0	33
*Japanese Canadians	262	0	187
	<u>584</u>	<u>2</u>	<u>283</u>

* Includes 3 U.S. citizens.

SABOTAGE SECTION

This section of the Criminal Investigation Department is charged with the task of attending to all files concerning suspected sabotage, and has been under the direct supervision of an officer. During the twelve month period under review, this section has dealt with a total of 219 cases. Complete details of the investigations conducted have been forwarded to the various Federal Government departments concerned. The departments most frequently corresponded with were Munitions and Supply and National Defence, these being intensely interested in all incidents connected with war industries, and armed forces equipment and supplies.

A steady decline has been noticed in cases of damage to machinery, which is undoubtedly attributable to the increased skill of industrial workers. Of the total number of cases reported under this heading, however, there were 111 fires, several of which occurred in Army and Air Force training centres. Thorough investigations were conducted but no evidence of enemy activity could be obtained. A decision was consequently reached that the great number of fires reported was due to the relaxation of security measures and the actions of disgruntled personnel.

As in previous years, a great many incidents which would pass unnoticed in peacetime have been reported as sabotage with the result that a thorough investigation is required in each case. This sabotage consciousness has been a prime factor in preventing any serious outbreak of that menace to our war effort.

In general, there is no evidence of enemy-directed acts of destruction, all instances being the direct result of carelessness, malice, spite or prank. The effectiveness of our anti-sabotage work cannot be gauged by the number of individuals prosecuted or convicted; the only test is the absence of sabotage.

Much credit for the lack of sabotage is due to the Veterans Guard, the auxiliary constables and other organizations whose members have performed the monotonous duty of guarding bridges, canal locks, power lines and other vulnerable points, in a very capable manner.

COUNTERFEITING

No major cases of counterfeiting banknotes or other negotiable scrip have occurred during the year, and with the exception of the west coast a most satisfactory state of affairs exists in regard to the making and circulation of counterfeit coins. A number of fifty cent counterfeit coins have been passed sporadically in Vancouver and its environs, and this is presently under investigation.
