### CARTER'S PILLS

### Burnaby School Estimates

BURNABY, Feb. 25.—School board estimates totaling \$220,000 ordinary and \$7500 extraordinary, were approved by the municipal council Monday night.

### Pneumonia

...often follows neglected colds

Unless checked, the simple cold pulls down the body resistance and frequently paves the way for pneumonia's deadly attack.

The best thing is to treat every cold promptly with Vicks VapoRub. This is doubly important during the next few weeks when pneumonia is at its height. Rubbed on the throat and chest, Vicks acts two ways at once in relieving a cold:

- (1) Its healing vapors, released by body- warmth are inhaled direct to the inflamed air-passages loosening phlegm and easing the breathing.
- (2) At the same time it acts like a positive irritant and "draws out" the tightness and pain.

This method of treating colds originated with Vicks. Today, the whole trend of modern medical practice is away from needless "dozing."

### VICKS VapoRub

Acts 2 Ways at Once
