Religion for Children

What I teach my children religion? "Yes, of course." "Do you ever act like which one is best to teach them?"

Children are quick to sense your attitude and follow your pattern. If you believe in your religion, it will be easy for you to teach it and you will not have to question your belief about it.

Children require some kind of religion. You may have some other name for the religion that you practice, but the translation is the same.

You tell me to teach morals and religion together. I must have a reason for being moral, and religion supplies that.
