## FATHER AND 6 CHILDREN BURN IN RESIDENCE

Mother, Severely Injured, Escapes With Babe, Also Hurt

WILLIAMSPORT, Pa., Jan. 28.—Clyde Smith, 33, and six children, ranging in ages from 4 to 17 years, were burned to death when fire destroyed their home at Fowles, seven miles north of here, early today.

The mother escaped, badly burned, with a two months' old infant. A son, 9, also made his way to safety.

The dead, in addition to the father, are: Frederick, 17; Marian, 16; Darfida, 14; Catherine, 11; Max, 6, and Gerald, 4.

The fire is believed to have been started from an overheated flue in the kitchen.

The fire was discovered by Engineer O. M. Rigby, when his train passed the house, which is located close to the railroad. He blew the engine whistle in an effort to rouse the family.

When the train reached Trout Run, a short distance north, it was stopped and the telegraph operator notified, who drove to Fowles.

Just as he reached the burning house, Mrs. Smith, with an infant, her arms, stumbled from the front door. The mother's night clothing was burned from her body and the baby was also burned.

## LONDON MOVIES TO DEFY SUNDAY BAN

LONDON, Jan. 28.—Despite the decision of the Court of Appeals, under a law of 1911, that Sunday movies were illegal under an eighteenth century statute, London's film fans will continue to enjoy Sunday talks and other screen entertainment for the present, it appeared today.

The city's cinema exhibitors today unanimously passed a resolution to continue Sunday shows until official notification is received to close.

It was emphasized at the exhibitors' meeting that in their view the decision of the court was not so much that the cinemas were illegal as that the London County Council's method of giving permission for them to open was contrary to the law.

## Playing Ping-Pong With Young Child, Judge Comments

Custody of Peggy, 4-year-old daughter of Dorothy May Holt, who is now married, remains with her mother, but she must allow her husband, from whom she has been separated for some time, access to the child in accordance with the terms of an order made previously by the court, Chief Justice Morrison has decided.

The matter came before the court on an application in behalf of her husband to commit the mother to prison for refusing to obey the previous order, but in support of her refusal affidavits were read seeking to show that it was not intended to ignore the mother's anxiety for the child's welfare.

She alleged the child had been sick for four or five days on one occasion, after the father returned it.

Chief Justice Morrison expressed the opinion that both parents, who are still young, were more concerned about their own feelings and not so much the child, with whom he said, they had been "playing ping-pong."

## CHURCH REALTY DISPUTE ENDED

Supreme Court action by A. J. C. Ford & Co. Ltd., local real estate agents, against the board of trustees of Wesley Congregation of the United Church of Canada, in which the plaintiffs claimed \$8,662.50 commission on the sale of Wesley Church property on West Georgia Street to A. B. Trites for \$336,500, has been dismissed by Mr. Justice Fisher, with counsel for the plaintiff consenting.

In the statement of claim it was alleged by the plaintiffs they were promised five per cent on the first \$10,000 and two and a half per cent on the balance of the purchase price on the property but the defense denied entering into any contract with the plaintiffs.

The defendants cited in the action were: Geo. T. Wadds, Chas. W. Craig, Geo. Hunter, Geo. R. Gordon, Caleb B. Mansell, Frederick T. Schooley, Wm. P. Argue, Ernest W. Lesson, Jonathan Rogers, Jonathan W. Foster and Robt. W. Harris.

T. E. Munn appeared for the plaintiffs and C. W. Craig, K.C., for the defense.

## KING'S AUNT CRITICALLY ILL OF BRONCHITIS

Princess Beatrice's Arm Also Fractured; Physicians Worried

LONDON, Jan. 28.—Princess Beatrice, 74-year-old aunt of King George and mother of the queen of Spain, has developed acute bronchitis, and tonight her physicians issued a bulletin saying they were "not without anxiety."

The illness became ill Friday, when she fell in Kensington Palace and broke her arm. Physicians said the fractured arm was making satisfactory progress. The danger lies in the bronchitis.

Princess Beatrice, who was the youngest child of Queen Victoria, and is the widow of Prince Henry of Battenberg, maintains a residence in tenberg, and accompanied her.

## EARTHQUAKES FELT AT SEVERAL POINTS

LONDON, Jan. 28.—The air ministry today announced the seismograph at Kew Observatory recorded a violent earthquake last night and a second of smaller proportions this morning. The first was estimated near the southeast border of China. Direction of distance was not known, but the quake was estimated at 1260 miles.

BERLIN, Jan. 28.—A violent earthquake shock was felt this morning at Hindenburg in Upper Silesia, and through the Katowice district. Damage was believed to have been slight.

ALASKA SHAKEN SEWARD, Alaska, Jan. 28.—Lasting about 25 seconds, an earthquake, said to be the most severe here in the past 15 or 20 years, cracked a few walls of buildings but otherwise did no particular damage. It occurred about

of her time in the Isle of Wight, of which she is governor.

MADRID, Jan. 28.—Queen Victoria took a fast train from here to Hendy, from where she will go to Paris and London to be at the bedside of her mother, Princess Beatrice. The Marquis of Carlbrooke accompanied her.

4:30 a.m., and was felt at Anchorage, 90 miles northwest of here.

Word of renewed activity among volcanoes of the Aleutian Islands and Alaska peninsula was brought here by Capt. C. E. Anderson of the steamer Starr.

Mt. Shushalton was hurling sheets of flame and dense clouds of smoke with clocklike regularity at five-minute intervals, Anderson said. Mt. Cleveland, on the Island of Four Mountains, and heretofore inactive, was sending forth great clouds of smoke.

## Public Hearings At Fisheries Probe

VICTORIA, Jan. 28.—Public hearings are proposed in the Federal Government's fisheries probe, first steps in which were taken today in a conference between Hon. S. L. Howe, Commissioner of Fisheries, and J. F. Day who has charge of the enquiry in British Columbia.

The views of interested parties will be invited at these hearings and the Provincial Government will explain its attitude toward the conservation and conduct of the industry.

OTTAWA, Jan. 28.—Many distinguished Canadian scientists and writers attended the funeral here today of Dr. Henry Marg Aml, who died at Mentone, France, January 4.

## Lightning Power Not So Hot

WOULD FILL NEEDS OF NEW YORK HALF SECOND

NEW YORK, Jan. 28.—The most powerful stroke of wild lightning ever measured by man would run New York City's power lines only half a second.

The stroke, 5,000,000 volts, was caught on an Arkansas electric line between Camden, Ark., and South Magnolia, and its measurements in watts and amperes was reported today to the American Institute of Electrical Engineers. It was trapped with photographic apparatus.

The Arkansas lightning picture was taken with oscillographs, photographic devices which operate in millionths of seconds. The big shot sent between 100,000 and 180,000 amperes over four miles of lower line. Its whole force was expended in about one-sixthousandth of a second.

## RIPPLE ROCK HELD MENAGE

Continued from Page One

dent of B. C. Coast Service, Canadian Pacific Steamship Co.; Capt. Arthur Slater, C.P.R. Steamships; Capt. A. Johnstone, Union Steamship Co.; Capt. C. W. Wearmouth, Capt. O. B. Smith and Capt. W. S. McCrehouse, B. C. Pilotage Authority; Carl Strout, superintendent, and Capt. C. T. Graham of Pacific Steamship Co., Seattle; P. B. Tracy, manager, and Capt. R. H. Anderson and C. B. Westlund, Alaska Steamship Co., Seattle; Capt. William Knight, Pacific American Fisheries; Capt. J. R. Jones and Capt. L. Cagle, Standard Oil Co.

WITNESSES DIFFER

The witnesses differed in their opinion of the desirability of closing Canal Pass, some claiming it would increase the current through Seymour Narrows, others that it might relieve side eddies.

They differed also on the question of how far Ripple Rock should be cut down below low water, some pilots saying a minimum of 40 feet would be none too safe.

It was suggested by Capt. Johnson that some day a ship canal 600 feet wide, to cost about \$3,000,000, would probably have to be cut through from the bay behind Maud Island to the south arm of Flumser Bay.

The hearing adjourned at 12:45 p.m., to resume at 10:30 a.m. tomorrow in the Merchants' Exchange Board Room, Marine Building.

CAPT. McMURRAY'S REASON

Capt. McMurray declared that Ripple Rock must be removed for several reasons:

1. It obstructs the Inside Passage, which is the only feasible route to Northern British Columbia ports;
2. It stands in the centre of Seymour Narrows, which is only four cables wide;
3. It is surrounded by tidal water

probably have to be cut through from the bay behind Maud Island to the south arm of Thunder Bay.  
The hearing adjourned at 12:45 p.m., to resume at 10:30 a.m. tomorrow in the Merchants' Exchange Board Room, Marine Building.

**CAPT. McMURRAY'S REASON**

Capt. McMurray declared that Ripple Rock must be removed for several reasons:

1. It obstructs the Inside Passage, which is the only feasible route to Northern British Columbia ports;
2. It stands in the centre of Seymour Narrows, which is only four cables wide;
3. It is surrounded by tidal water runs faster than any other tidal water on the route;
4. It is an obstruction to navigation even at slack tide;
5. There is a turn in Seymour Narrows less than a quarter of a mile south of the rock;
6. Navigation is impossible on the west side of Ripple Rock, and the passage is only half its actual width for purposes of navigation.

**NAVIGATOR'S EXPERIENCE**

Capt. Johnstone gave a vivid account of the difficulty of navigating ships through Seymour Narrows, and submitted a chart of the currents around Ripple Rock. He testified that he has passed through the channel over 2100 times.

Pilots agreed that tidal water through the passage sometimes attains a speed of 16 knots, making it possible for a vessel striking Ripple Rock broadside on, to overturn and sink instantaneously.

Capt. Wearmouth declared that, because ships are likely to settle in the current over Ripple Rock, it should be cut down to 30 feet below its present depth, which is nine feet below slack water, since vessels of 20 feet draft are using the passage at the present time.

Capt. Smith asserted that it is necessary now to hold larger vessels sometimes four or five hours at the entrance to Seymour Narrows to wait for slack water. When this is done, the ships get into strong currents at Salmon River. If Ripple Rock were removed, these delays would be avoided.

All the witnesses agreed that fog closes down suddenly in Seymour Narrows when it is clear outside, and stressed the danger of collision when all vessels are forced to use only the east half of the passage.  
Towing conditions through the passage are very bad, declared Captain Jones. He said many of the accidents which have happened near Ripple Rock have been due to this.

The new North German Lloyd liner, General von Steuben, completed a successful trial run in the North Sea a few days ago, and will sail for New York Feb. 5.

Among the guests aboard at the reception preceding the trial run was General von Steuben, a direct descendant of the famous German general, after whom the ship was named.  
The new vessel is due in New York Feb. 15, commanded by Capt. Bruenings.
