## CONTROL SALE OF JAP LAND

(By Canadian Press.)

OTTAWA, July 6.—Gordon Murchison, director of Soldier Settlement, is given power to control the disposition, by "sale, lease or otherwise," of agricultural land owned by Japanese in the protected area at the British Columbia coast, under an order-in-council published in an extra edition of the Canada Gazette.

The action was taken, said the order, "for the security of peace, order and welfare of Canada."

Many Japanese were engaged in agriculture at the Coast before Japan entered the war. The British Columbia Security Commission has been moving the Japanese away from the strategic coastal area and as a result many have been compelled to abandon operation of their properties.

### TERMS OF ORDER.

The order, dated June 29, provides that "except with the approval of the director and in accordance with any terms or conditions therein set out, no person shall, after the date hereof:

"1. Purchase, lease, or otherwise acquire or agree to purchase, lease or otherwise acquire, or

"2. Either for himself or on behalf of the owner, sell, lease or otherwise dispose of or agree to sell, lease or otherwise dispose of,

"Any agricultural land in a protected area of British Columbia, owned by any person of the Japanese race or by any Japanese company."

Mr. Murchison is to have made an appraisal "of the fair present day value" of all agricultural lands in any protected area of British Columbia owned by persons of the Japanese race or Japanese company.

He is empowered to appoint inspectors with authority to inspect any land "reasonably believed" to be Japanese-owned and to gather information about such land.

A fine not exceeding \$1000 or imprisonment not over six months or both—may be imposed on persons who do not abide by the regulations. Burden of proof of innocence is upon the accused.

The casualty list also reports Sgt. Ldr. Sidney Alfred David Pile, whose mother, Mrs. A. R. Pile, resides at 2348 East Twenty-eighth, as seriously ill overseas.

## STEVENS CHARGES PARTIZANSHIP

## King's Resignation, Formation National Government Asked

Shelving of "partisan politics" through resignation of Prime Minister King and formation of a national government, is recommended in a press statement issued today by Hon. H. H. Stevens, former minister of trade and commerce.

"The Prime Minister is on the horns of a dilemma which is of his own making, and due to his evasion of responsibility. . . It is the constitutional duty of Mr. King to name the person competent to form a national government."

A national government, Mr. Stevens considers, ought to include three representatives of labor; three representatives of agriculture; representative leaders of industry and finance; four Liberals, two Conservatives, one C.C.F. and one New Democracy.

### LABOR PLACED FIRST.

"I place labor first. . . because in my opinion labor has been largely ignored since the outbreak of war. . . This has been in definite contrast to the course adopted in Britain. In Britain labor has been given a vital place in the government."

Agriculture represents about 45 per cent. of the population of Canada and is entitled to definite representation in the government.

"The House of Commons, as now constituted, does not reflect the true opinion of the people of Canada. The Liberal party is torn with schisms and violent conflict of opinion. Having lost a substantial proportion of its following in the country, its prestige is at a low ebb."

### LEADERSHIP LACKING.

A national government formulated on the basis of the majority of the people and would be in a position to solve "the many problems which at present baffle a purely partisan government."

"The people of Canada have demonstrated, not only through the plebiscite but by their daily

actions, that they are willing and anxious to make all reasonable sacrifices to win this war and to secure equitable and just conditions in the after-war period.

"Indeed, the average citizen is far ahead of Mr. King and his government in this respect. There is but one thing lacking in Canada at this time and that is dynamic leadership divested of partisan control, devoted to the most effective contribution that Canada is capable of making to winning the war."

## LOOKING BACKWARD

FORTY YEARS AGO.

July 6, 1902.

**JAPANESE TO VISIT**—To visit Vancouver and other cities of the Pacific Coast and study western civilization, is the object of the latest system of scholarships established in Japan. The first party of students will arrive in B. C. by the steamer Iyomaru, due at Victoria on July 14. Other Japanese scholarship winners will go to Korea and China on a sightseeing trip.

**TWENTY-FIVE YEARS AGO.**

July 6, 1917.

**MEMBERS OPPOSE CONSCRIPTION**—Two Quebec members, former government supporters, took seats on the opposition side of the House when Parliament assembled today. Both left the Conservative party in opposition to the conscription bill.

D. A. LaFortune said this was a good record for one day. He declared that the people of Quebec were willing to do their duty, but they refused to be led to slaughter like sheep by a government without a mandate.

**BOMB GERMANY**—London—"Several tons" of explosive bombs were dropped by British aviators Tuesday and Wednesday night on German air-dromes at Ostend, Ghisteltes, and Neuveumunster and the Zaaren railway station. The British machines all returned safely.

**20 YEARS AGO.**

July 6, 1922.

**INSURGENTS CAPTURED**—Dublin—The last of the Irish Republican irregulars in the Sackville-street area surrendered to the National Army forces today. It seems clearly evident that the revolt of de Valera and Rory O'Connor has petered out.

**ENJOY BROADCAST**—Out-of-town radio fans are getting big value from The Vancouver Daily Province broadcast, according to a listener at Gibsons Landing, who writes to say he heard a test broadcast that came in "not only loud but clear."
