### Whiteside to Deal With Jap Acreage

Mr. Justice David Whiteside, of New Westminster, has been appointed chairman of a committee that will deal with Japanese farm lands in British Columbia, it is reported today from Ottawa.

Yesterday it was intimated that he would deal with fishing boats, but that matter has been taken care of by a special committee appointed by order-in-council some weeks ago.

This committee makes its recommendations to a main committee at Ottawa. Applications by the armed forces, for fishing vessels are first considered by the western body which carries representatives from the shipping interests, the fisheries department, the department of munitions and supplies, and of the different branches of the armed forces.

Already a number of such applications have been made, and in some cases the recommendations of the local body have resulted in the refusal of the government to permit the armed forces to take the vessels. Cannery and other fishing interests on this coast express satisfaction at the fair and unbiased attitude taken by the special field committee in connection with the cases which have come before it.
