Re: P/W A-1305 - TAMAI, Isamu

Dear Sir:

Will you kindly parade the above named internee and question him regarding the House at Ueluelet, which he claims to own, according to the information on his "JP" Form.

If he is the owner of this property, will you kindly obtain from him all details of same, such as the exact location, if it is rented, the value, etc.

Yours truly,

K.W. WRIGHT.
Counsel to the Custodian.

Sir -

According to the letter from the Custodian the proceeds from the sale of the two "Loyals" have already been distributed among the members of our Association as decided at the meeting of the Associated on the 26th of February.

However, as the members of the said Association living in the ghost towns are already receiving their share of the proceeds, I do not see why there is such a delay in forwarding the money to the members interned in this camp.

I would be obliged, therefore, if you will kindly investigate this matter at your earliest convenience and then to send to IKARI Senichi P/W #42 and TAMAI Isamu P/W #586 (both lacking funds, had previously written to the Custodian for spending money with no results) in care of this camp twenty-five dollars (\$25.00) apiece from their share of the sale as soon as possible.

Yours very truly,

"K. Tsujiuchi"
