Dear Sir:

Letter No.

I would greatly appreciate any information
you could forward to me regarding the disposal of
the Japanese fishing vessels that have been im-
pounded.

I have had quite a few years experience
around the fishing grounds and on the Canadian
National Coastal Service. I also hold Q. D. M.
discharges, also lifeboat and sail certificate,
so I am certain that any boat that is in my care
would be properly cared for and handled.

Please give the details about the renting,
leasing or buying of the said equipment, and
oblige

Thos. E. Jones.
