To
The Dep't of Fisheries
Victoria -

Gentlemen -

When, the matter of, putting
the seized "Japanese Fishing Fleet"
to work, is finally settled, will
you please let me know; so that
two of us, who are ambitious, to go
fishing, might secure one, or two of
these boats.

We are familiar with the Pacific
coast, and boats. We also consider
that "Gold Mining", is "non-essential",
in winning the "war"; We intend
to devote our services, in the near
future, to more pressing, or essential
necessities, of our Country. We are
both Ex-service men.

Your help, will be appreciated.

Thanks.

Yours truly

John Paterson

H-29.
