Dear Sirs;

I have heard that they rent
or sell the fishing boats that the
government have confiscated from the
interned Japanese.

If this is so is it possible
for any one person to obtain inform-
ation or forms to fill out regarding
any such items.

We are very much interested
as due to health we have been
advised to live near the salt water.

So if it is convenient would
you please forward the information
obtainable to the above address.

Thanking You.

Mrs Edith Gilmore.
