

in Canada. Many friend and persons of our minority have joined the services of Canada for right, justice and fairness, for everything that the war stood for, be a dead cause when there is injustice of liquidating personal assets and belonging without the approval of its rightful owners.

Such injustice, I will appeal to you for reconsideration, till such time, I can and will be able to settle. If my appeal to you to withhold such a liquidation is of no avail, you can be assured it will be heard and protested to all persons concerned and responsible for the injustice. I will, with all my efforts, let the Canadian Public know what form of injustice is carried on in spite of the true form of government and policy which Democracy stands for in Canada. I will be returnint to Toronto soon, and there I will also seek help from organizations that believe in Democracy, Justice, Fairplay and Equality to all.

Yours truly,

(signed) T. Yoshida.
