Office of the Custodian,  
Vancouver, B. C.

Dear Sir:

Received the cheque for the sum of four hundred and sixty-four dollars and five cents (\$464.05). Also received the letter stating the book-keeping which there were no mistake except for the Sun Life Assurance dividend part. I have written to them also so hope it will straighten out with trouble.

But one thing I hope you will keep on your file of records about us not being satisfied with the price of the boat "T.K.1936" has being sold. In regarding to this matter we have written previously too. I think you have the price which we have asked for being selling the boat.

That is the only thing we are unsatisfactory about the boat price. I didn't know you were going to send us the money yet, but thank you again for everything.

Yours truly,

T. Kondo"

The above letter was received from Toke Tohachiro KONDO #11966, File 1995.

The matter of his life policy dividend is not the concern of the Custodian.

In regard to the price at which his vessel was sold the records show:

Owner's Valuation -	\$2,100.00
J.F.V.D.C. " -	\$1,495.00
Custodian " -	\$1,100.00
Sale Price	\$1,100.00
Expenses	215.38
Net Credit	884.62

(It is noted that repairs to the value of \$496.10 were paid by the Dominion Govt. through the Dept. of Fisheries in connection with damage sustained in custody)
